Copy of "Code of Declarations"
Letter from D.B.C. to Informant #1

No 1

New York, Oct. 4th, 1888.

Sir:-

Our informant No. 1 further reports as follows:

Monday Oct. 1st, 1888.

"On Saturday, 29th ultimo. at 4:00 p.m. I left New York and went direct through to Reading, Penn., arriving at 7:50. I spent an hour or more with some of our members who are on the Sch. Val. R.R. (a branch of Penna. Central). No one with whom I came in contact knew of any contemplated trouble on that system, and there was at least one man-Engineer Church- with whom I talked that I think would know something on the subject if there was anything to it, as he is one of those busy bodies who is always on the lookout for such matters.

Next day-Sunday- at 2:00 p.m. I attended our meeting, which was pretty full for our Division, and got my credentials as delegate and instructions which were against any federation, and on other points that might come up to use my own judgment. At the meeting I spoke of having heard of some contemplated trouble on the Penn. Central and it was received as news, no one present seeming to know anything about it.

This morning I took the 10:15 train for Philadelphia and put in an hour at 9th and Green Streets. None of the engineers around there showed any knowledge of anything on the P.R.R. system.

I took the 1:15 p.m. train, Bound Brook, for New York arriving at 3:45. On reaching my office I found the accompanying letter and printed circular. There were no circulars received by my Division except such as those I have sent you. There is almost unanimity of feeling amongst engineers against any federation with the other orders

and when they come to know that it is intended to include the K. of L. in the affair I don't believe it will be entertained by our convention at all.

Yours Respectfully

Copy of letter to informant No.1 from Eugene V. Debs, Grand Sec. and Treas. of the Grand Lodge Brotherhood of Locomotive Firemen.

Terre Haute, Ind., Sept. 28th, 1888.

"Your favor of the 21st inst. came duly to hand and contents have been noted. I also received your former letter but was so extremely busy preparing for the convention that I couldn't get a chance to answer it. I enclose a copy of the code of federation adopted by our convention. I understand it has been approved by the switchmen. The three grand officers of our order have been delegated to attend the Richmond convention to see whether the engineers favor the scheme. It is a difficult thing and I fear a dangerous one to handle, but properly directed I believe it will result in great good. As I shall have the pleasure of meeting you at Richmond I shall reserve my answer to your letter until I meet you in person. We shall then have an opportunity to converse together to the end of the chapter. Can't you give us an article for the November number? The boys are beginning to wonder what's the matter with you. Accept my best thanks for your congratulations. I will look for you with all eyes upon my arrival in Richmond."

Copy of the code of federation.
Federation.

We, the Brotherhood of Locomotive Firemen, in Convention assembled,

believe, that labor may receive its just reward, and its rights and dignity, the consideration that it merits, that the guaranteed privileges of citizenship, as laid down in the Constitution of our country, may be ours to enjoy without the abridgement of a conspiracy, whose existence is a menace to the genius and life of our institutions; a conspiracy that is eating into the very vitals of our liberties, and threatens the destruction of the Republic. Its march is like the epidemic of a pestilence, with its one burning eye of avarice, devouring corporations like a Cyclop. Recognizing this danger, we believe that organized labor, to save itself from utter annihilation piece-meal, must admit that an injury to one is the concern of all. We only ask the same rights that others claim for themselves. The prosperity and peaceful contentment of any nations rests upon the justice given to labor; honest pay for honest toil. With these convictions, we feel that no better nor more acceptible way can be advanced for our closer alliance to a distinct and comprehensive understanding than by the adoption of methods similar to the magnificent principles upon which our government is founded: Each State stands free and independent, retaining its own identity, having its own laws and Constitution, without infringing or coming into conflict with the laws of any other State, or with the laws of the United States. In the event of any State being unable to quiet a disturbance within itself, or check the aggression or invasion of a foreigner, then the Federal Government comes to its assistance. No State loses any of its strength, respect or character by the fact of its being one of the Union, but in turbulent times it receives the support of the whole. With these views we respectfully submit the following for the consideration of the sev-

eral organizations on the Railroads of the Continent, keeping in mind these relative positions: that the different organizations shall be to the Board of Federation, as the several States are to the Congress of the United States:

Section 1. Upon each system of railroads, within the confines of North America, there shall be organized a Board of Federation to consist of three members from each organization represented.

Sec. 2. The Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen, the Knights of Labor, the Switchmen's Mutual Aid Association, the Brotherhood of Railroad Brakemen, and the Brotherhood of Telegraphers, and shall receive and consider the application of any other organization on that system to join the Federated Board to be accepted as a majority see fit, do hereby agree to the following articles of Federation to govern our relations with the management of the system upon which we are employed.

Sec. 3. The members of the Board of Federation shall be representatives of the Executive, Grievance Committee or Boards of Adjustment of their respective organizations.

Sec.4. In case of the Executive or Grievance Committee of either organization failing to effect a settlement satisfactorily to them, they shall comply with the laws of their organization regarding grievances and strikes, and if their action in the matter receives the endoresement of their organization said grievance shall be submitted to the Federated Board for final action.

Sec.5. Should the Federated Board agree on the justness of the alleged grievance they shall at once proceed to adjust the same.

Sec. 6. The Federated Board failing to satisfactorily adjust the difficulty, shall notify the organizations presenting the grievance of such failure, informing them that if they desire to go beyond these peaceful measures they shall have the entire moral and, if necessary, the financial support of all the organizations represented on the Board.

Sec. 7. Should the organization, where the grievance originated, conclude that in order to obtain the justice demanded that a strike is necessary, the Federated Board shall have authority, by two-third vote, if in their judgment they deem it advisable to do so, order all the other organizations of that system represented on the Board to join in the struggle to bring about a speedy settlement.

Sec. 8. The organizations represented in this agreement mutually agree to do all in their power to build up and strengthen each other by influencing all persons to become members of the organization representing their trade or calling.

Sec. 9. An expelled member of either organization shall be ineligible to membership in any of the other organizations unless by the consent of the organization from which he was expelled.

Your committee respectfully suggest that a special committee of three be appointed by the Convention to present this plan of Federation to the Conventions of the different organizations herein mentioned, for their approval. Upon such endorsement by the executive officer under seal, this plan of Federation shall become a law.

W. F. Hynes,
I. M. Dean,
J. J. Lannan,
} Committee.
Chairman.
